30.07.2011 FERRARI ANNOUNCES TARGA FLORIO TRIBUTE

At the brand new *Eco Targa Florio* in September, Ferrari will pay tribute to the classic Targa Florio and to its historic route with the *Ferrari Tribute to the Targa Florio*.

The new route and programme have been created to connect the history of this legendary race with the earth, tastes and aromas of Sicily. The 2011 route will pay homage to tradition, retracing the historic route of the "Piccolo Circuito delle Madonie" from the start to the finish line.

So that entrants get a chance to marvel at Sicily's breathtaking beauty and to sample its wonderful food, a number of stops in the regularity trials have been planned. This means that the excitement of the race can be combined with the discovery of this wonderful region. As at the historic revivals of the Mille Miglia and the Coppa Milano-Sanremo, modern and classic Ferraris will line up at the start and will open the regularity event.

Both modern and classic Ferraris will be taking part in the Tribute. Cars of the categories sport and sport prototypes (manufactured from 1948 to 1977) are also eligible for the *Eco Targa Florio Classic* and entrants can choose which event they prefer to enter (the route and regularity trials will be exactly the same). All Ferraris manufactured from 1948 to 2011 are eligible. During the selection process, cars with a Ferrari Classiche Certificate of authenticity will take precedence over cars for which the document has not been issued.

This year's edition of the legendary road race takes place from Thursday, September 29th, to Saturday, October 1st. It's a three day event with the start in Cerda (PA, Italy), the historic Targa Florio starting point, with scrutineering on either Wednesday September 28th or the morning of Thursday September 29th. The prize-giving ceremony will be on Sunday, October 2nd at Castello Uveggio.
