Sicily stage for 'eco targa florio'

ECO TARCA FLORIO

A PAST WORTH LOVING, A FUTURE WORTH SUPPORTING

In a journey through Sicily, cars from the past, present, and future will return to hug the curves of the historic *Circuito delle Madonie*

The first commemorative Eco Targa Florio event is ready to go: four international engagements, a forum for discussion and three cosmopolitan competitions, will pay homage to the famous motor race born in 1906 and competed 95 times to this day in events ranging from World to European to Italian championships, in both rally and regularity speed formulas.

In a single event, four separate addenda will combine to give life to an ambitious project: for five days, Sicily will be the stage for an encounter with sustainable mobility, where eco-transport theory and practice will find their expression.

§ **6° Eco Mobility International Forum** (Wednesday 28th of September)

§ **Eco Targa Florio Green Prix** (from Thursday 29th of Sept. to Saturday 1st of October)

§ **Eco Targa Florio Classic** (from Thursday 29th of Sept. to Saturday 1st of October)

§ **Ferrari Tribute to Targa Florio** (from Thursday 29th of Sept. to Saturday 1st of October)

From 29th September to 2nd October 2011, Sicily will paint itself green in Palermo and on the roads of the competition that wrote automotive history, the Targa Florio. Eco Targa Florio is an event organized by MAC Group together with the Fondazione Targa Florio Onlus, in collaboration with ACI Palermo (the Automobile Club of Palermo), who has placed its trust in the expertise of the leader-representative of the Temporary Business Association entrusted with the organization of the Historical Re-enactment of the Mille Miglia.

Thursday, 29 September 2011
